WestCongress is pleased to announce the rollout of a new Miscellaneous Professional Liability Product. Led by industry veteran Bill McLaughlin, the professionals at WestCongress are here to help you prepare and protect your business from the financial and reputational damage that can arise from claims of negligent acts, errors or omissions in performing services for your clients.

With coverage provided by Lloyd's of London, we are targeting small to mid-sized organizations across a broad range of professional services.

We are now accepting submissions for Miscellaneous Professional Liability coverage through our regular submissions email (submissions@westcongress.com).
